Dear Meghana,

Congratulations on successfully completing your program at University of Bath, and thank you for registering for your IB certificate, which is enclosed. I am pleased to welcome you to an international community of lifelong learners and high-quality educators.

This certificate demonstrates your commitment to professional learning, critical reflection and academic research into IB programmes. Certificate holders have completed rigorous and systematic investigative work in the areas of curriculum development, pedagogy and assessment.

If you are not currently teaching in a candidate school or IB World School you will receive access to the IB's online community, the Programme Resource Centre, for a two-year period. You can continue to use the same login details that you were given when you started your program of study.

Once again, many congratulations on becoming a member of this international community of certificate holders. We would love to learn more about your teaching experience and practice, so please connect with us in the programme communities under "IB educator certificates."

Yours sincerely,

A handwritten signature in black ink that reads "Lisa Boms".
